WHY WE NEED A SPECIAL CENSUS IN OUR COMMUNITY

Some residents may wonder why we are conducting another census for our community. After all, didn't we just participate in the big national census in 2000? Well, things have changed since then. Our population has grown. New people have built homes and moved into our community. It is vital that we document this change with certified census counts so that we get our fair share of state and federal funds. This is why we are conducting and paying for a Special Census in our community. It simply makes sense!

Census data are used to distribute millions of federal and state dollars throughout the nation to provide important services at the local level. Healthcare, schools and education, day care programs, transportation planning, and services for seniors all use census data to determine how much money each community receives to provide these important services. Census data are also used by businesses to locate potential markets, open new stores, market products and create new jobs.

Census data will be used by our community to plan for our future. By using census data, we can work to create public improvement strategies that minimize traffic congestion, meet the growing needs of seniors, and make decisions affecting everyone in our community based on current and accurate information.

IF SOMEONE KNOCKS ON YOUR DOOR

Special Census enumerators have started contacting residents at their homes to conduct interviews. All workers will have a Census Bureau badge. ***When the census enumerator knocks on your door, please cooperate.*** The enumerator will ask you 5 questions for each person living in your household, and the interview should take about 7 minutes.

Your answers are private. Every Census Bureau worker takes an oath to protect your answers. If they violate this oath, they'll face a maximum of 5 years in jail and a \$250,000 fine. That's the law!

The Census Bureau never releases information that identifies you or your household. The law and our respect for your privacy mean you can trust the Census Bureau, AND the law applies whether or not you are a U.S. citizen.

So go ahead and answer the enumerator's questions. Your participation allows our community to get an updated population count. This new count will help us qualify for federal and state revenue that we need to provide essential services like street repair, police protection, programs for our seniors and other important services we depend on every day.

Thank you in advance for participating in our Special Census. By completing the questionnaire, you help everyone living in our community.

For more information, contact the Office of Special Census at 301-763-1429 or visit their web site at www.census.gov/specialcensus.
